

Alejo Thomas Cano

Fullstack Developer

About Me

I am a self-taught web developer with a passion for technology and a love for working collaboratively. I thrive in team environments and am always eager to contribute new and innovative ideas to projects.

Experience

Freelance Developer

As a professional web developer, I have had the opportunity to work on numerous freelance projects for various clients and businesses. My specialties include developing high-quality landing pages, creating responsive designs, and consuming APIs. I take pride in my work, and much of my portfolio is available on my GitHub profile for you to explore.

Desarrollos Moyan

01/2022-09/2022

During my time at a Colombian software agency, I had the opportunity to work on a wide range of tasks as a full-stack web developer, including front-end, back-end, and DevOps responsibilities. I primarily used React and Node for development, and Docker for deployment. I am proud of my contributions to the success of the projects I worked on during my time there.

Peninsula - Corporate Innovation

09/2022-XX/XXXX

I had the privilege of working with a Spain-based business that specialized in software as a service. As a full-stack web developer, I primarily focused on front-end and back-end tasks, using React and Node to build and maintain high-quality web applications. Working with a large team, I had the opportunity to utilize Scrum methodology to optimize our productivity and ensure that we met our project goals efficiently.
