Successfully graduated from University of Shkoder "Luigj Gurakuqi" in Informatics and working as a skilled Frontend developer for a small company in Shkoder/Albania. As a front-end developer, I have implemented real-world industry best practices and turned client/customer concepts into workable models.

EXPERIENCE

AUGUST 2022 – PRESENT
FRONTEND DEVELOPER, CLICKSERVICE

- Performed independent research to identify 30+ project designs and proposed solutions to code lines.
- Participated in the full lifecycle development process with the work team.
- Collaborated with product team members to implement new feature developments.
- Implemented websites and landing pages from concept through deployment.
- Translated design team's UX wireframes and mockups into responsive, interactive features, using HTML/CSS and JavaScript.
- Designed and developed front-end for 10+ websites, using HTML,CSS, JAVASCRIPT, PHP, and Wordpress, Prestashop.

MARCH 2022 – JULY 2022
INFORMATION TECHNOLOGY INTERNSHIP, UNIVERSITY OF SHKODER

- Analyzing technical problems and identifying computer requirements to solve those problems with appropriate IT solutions.
- Designing, implementing and evaluating computer-based systems, processes, components, and programs.
- Identifying, analyzing, and responding to user needs for the selection, creation, evaluation, and administration of computer-based systems.
