Education

Shirak State University
*Faculty of Mathematics
and Informatics
January 2014 - June 2018*

About me

I'm a Motion Graphics Designer with over 5 years of experience. Throughout my career, I have had the opportunity to work on various projects, including explainer videos, animation templates, Lottie animations and more. I enjoy bringing illustrations to life through the creative process; it's what drives and inspires me.

Experience

Yans Media
*Motion Graphics Designer / 2D Animator
July 2022 - January 2024*

- Crafted explainer videos using advanced motion graphics and 2D animation techniques, including frame-by-frame animations and 3D elements.

- Developed 120+ Lottie animations, featuring characters and infographics

Bizon Production
*Motion Graphics Designer
June 2021- July 2022*

- Created logo animations for various clients to improve brand identity and engagement

Renderforest
*Illustrator & Motion Graphics Designer
July 2018- June 2021*

- Produced a wide range of illustrations, including characters, backgrounds, and objects for Renderforest's animation toolkits

- Designed and animated motion graphics templates, and integrated them into the backend system
