

Evelyn Gandolfo

Sr. UX/UI Design

I have a degree in Visual Communication Design from UNL. My first steps began when I entered the digital world, where I was able to link traditional design with new technologies, having participated in several projects where the key is user experience.

EXPERIENCE

Cloud(x) — Sr. UX/UI Designer

May 2022 - Present

Worked as a UX Analyst where I focused on the user study, user flows of the product and designed wireframes which showed the interaction on the screens with the different functions.

Also as a UI Designer I've been working on redesign and getting better the design system creating at the same time the prototype of the product.

Natural Tech House — UX/UI Designer

September 2021 - April 2022

My main functions are linked to thinking about the user experience, carrying out tasks such as research, creation of structures and product flows, ideation of wireframes and design systems, as well as testing with users.

Dinoia — UX/UI Designer

May 2020 - August 2021

As a UX/UI Designer, I participated in several digital product projects, being able to provide my opinion where the user experience is the key. My work focused more on the construction of coherent design systems for the product as well as the ideation of navigability flows.

Freelance

March 2017 - March 2020

Creation of graphic pieces linked to advertising design, such as banners, posters and digital publications on social media, editorial design such as magazines and publication pieces, identity design
