EXPERIENCE

Ogo Technology (Web Developer) 2023 - 2024

- During my time at this institution, I gained a lot of experience and successfully completed all the projects assigned to me.
- I have completed many projects for this agency, including an e-commerce website, a car booking system, an institute management system, an inventory system, a hostel booking system, and more.

Freelancer Developer 2024- Present

I have done two freelance projects and they are a telegram web bot app and a company website. Currently I am building an e-commerce site.
The urls of the above projects are shown below.
