

# Olamide Kadiri

UI/UX Designer | Wordpress Developer

As an experienced UI/UX designer proficient in WordPress development, I excel at crafting visually appealing and user-friendly interfaces that engage users and deliver exceptional results.

## Work Experience

### New Home Snagging

Designed and developed a cutting-edge website for a construction error detection and fixing company. Created an intuitive user interface to showcase their services, effectively communicating their expertise and generating leads. Resulted in increased online visibility and facilitated efficient client interactions, contributing to the company's growth and success.

### Linkpp

Designed app interface for link management app, streamlining and organizing web links for users. Enhanced user experience and efficiency in link sharing and access.

### Sabreworks

Designed and developed a dynamic website for Sabreworks, a real estate company, showcasing their diverse portfolio of land and buildings for sale, construction services, and property management. Elevated online presence and facilitated seamless client engagement.

### BricoBrowser

Redesigned the interface for Brico Browser, a multitasking browser app. Seamlessly managed multiple tasks, enhancing user productivity and providing a smooth browsing experience.

### Fat Fight Camp

Designed and developed a dynamic personal website for a UK-based boxer and personal training expert. Showcased their skills, achievements, and training services, effectively promoting their brand and attracting clients.

## Education

B.Eng in Mechanical Engineering  
Federal University of Technology Akure.
